MERCHANDISE FACTORY

WE ARE AN **ESTABLISHED COMPANY** WITH **EXTENSIVE EXPERIENCE IN MERCHANDISE.**

We are an established company with extensive experience in merchandise. **We have been operating on the market for more than 15 years**, but the beginnings of the company date back to 2002, when it was founded as a hobby dedicated to music.

We have expanded the ranks of our customers with honest work, so we now take care of hundreds of music groups and companies from all over the world. We collaborate with amateur musicians and small bands that we like to support, as well as world-famous groups that we value for their trust. We help companies

complete their professional image. Of course, we do not forget about sports clubs and festivals at home and abroad.

Every customer is important to us. We know that if we do a good job, we will welcome him back soon. We offer our customers a comprehensive solution to all their requirements so that they always leave us satisfied and convinced that the chosen solution exactly suits their idea. Our professional team of graphic designers solves your ideas and problems with graphics on a daily basis.

We look forward to working with you!

Call us!

We are happy to materialize your ideas into a concrete form. We print T-shirts, sweatshirts or any other textile. We offer materials from approximately one hundred renowned global companies. In the case of full-color prints, we are not limited by anything - we print from one piece up to tens of thousands of series.

Our advantage is quality, creativity and an individual approach to customers.

Ask us!

There is nothing that since it did not materialize!

...before I come... at the event

TICKETS for presale

We will make tickets and **tickets of all formats and sizes for your event.**

We offer several types of paper. When choosing the material for printing tickets, we recommend choosing coated or medium-weight offset paper. Matte chalk 200g seems to be the ideal material.

It is a white coated medium weight material for ticket printing.

Ticket **printing** can be **single-sided** or **double-sided**, you can also choose one of the offered surface treatments.

Tickets can also be **numbered** in the

numerical row and **provide** a vertical **perforation** for easier tearing off the control clip. It can be placed anywhere on the ticket.

Tickets may include a **QR** or **barcode** to communicate with the ticket control system.

POSTERS

and other printed matter

posters up
to A0 format

desk and
wall calendars

LEAFLETS, STICKERS and printed programs

Leaflets and posters are the most common form of presentation. They are not demanding in terms of production and serve to address a wide range of potential visitors

The most common size variants are formats of the size series **A6, A5, A4, A3**. The weight and type of paper depend on the purpose of use and your idea.

Flyers can be classic or also folded.

We print posters in digital and offset printing in A0 format.

Digital printing allows production from one piece.

We print stickers on paper or plastic. These can also be clear.

The material is selected according to the environment for which they are intended.

We can cut the stickers into the shape you want.

You need advice
with data preparation or create graphics?

TAPES ON HAND

identification

For **one-time, one-day events** to you
ordinary gourd tapes are enough,
priced pennies.

If you're already doing a more **expensive action**,
or an event where you go
For every detail, we recommend **sublimation tapes**.

These tapes are characterized by extreme
fortress and you can draw graphics on them
beautifully. The visitor likes to keep it on his hands like
memorial talisman. :) You can also opt for
woven textile tapes where necessary
use simpler graphics.

PROGRAM

for visitors

Stitched, glued, folded or spiral. Offset or digital printing, color or black and white. We have many years of experience with printing, we will be happy to advise you on the most suitable choice of papers, envelopes, bindings, etc.

We recommend either a **booklet** where you can use the site for advertising, or **plastic cards** that can be used on one side as advertising festival events, on the other hand, for example, as a time schedule.
