## MAGIC MUGS

Magic mugs are an enticing and playful advertising item. **The design is fully depicted and revealed only after pouring hot water.** So, it responds to whether your drink is hot or cold.

In the case of black magic mugs, the motive is not visible without hot fluids at all, in the case of coloured only the which is darker than the colour of the mug itself. The magic mug is an ideal gift not only for individuals.

In the case of a larger quantity, it looks most effective, when part of the design will still be visible thanks to the swab printing and the remaining part does not appear until after pouring hot water.

### **In the case of textiles, the offer is particularly wide!**

Ask us which textile\* is suitable, because almost every textile brand offers polyester material and almost any 100% polyester can be used for pieces and sublimation technology!

\*If you choose a textile other than white for sublimation, such as blue, create your own design only that is darker than textile backing. In the case of blue, for example, black or an even darker blue print. Only then will the result be really perfect!

If you want to print traditional and distinctive colours on dark textiles, ask us which of the other technologies will be the most suitable and we will produce exactly what you need! And thanks to digital technology, even a single piece!
